**P.G.Grinevich: List of publications**

1. Grinevich P.G. Rational solutions for the equations of commutation of differential operators. — Funct. Anal. i ego Pril., 1982, v.16, No 1, pp. 19-24 (in russian); English translation: Funct. Anal. Appl., 1982, v. 16, pp. 15-19.

2. Novikov S.P., Grinevich P.G. About the spectral theory of commuting operators of rank 2 with periodic coefficients. — Funct. Anal. i ego Pril., 1982, v. 16, No 1, pp. 25-26 (in russian); English translation: Funct. Anal. Appl., 1982, v. 16, pp. 19-21.

3. Grinevich P.G. Commuting matrix differential orerators of arbitrary rank. — Dokl. Akad. Nauk SSSR, 1984, v.278, No 5, pp. 1048-1052. English translation: Soviet Math. Dokl. 1984, v.30, No 2, pp. 515-518.

4. Grinevich P.G., Novikov R.G. Analogues of multisoliton potentials for the two-dimensional Schrodinger operator. — Funct. Anal. i ego Pril., 1985, v. 19, No 4, pp. 32-42 (in russian); English translation: Funct.Anal.Appl., 1985, v.19, pp. 276-285.

5. Grinevich P.G., Novikov R.G. Analogues of multisoliton potentials for the two-dimensional Schrodinger operator, and a nonlocal Riemann problem. — Dokl. Akad. Nauk SSSR, 1986, v.286, No 1, pp. 19-22 (in russian). English translation: Soviet Math. Dokl. 1986, v.33, No 1, pp. 9-12.

6. Grinevich P.G. Manakov S.V. Inverse scattering problem for the two-dimensional Schrodinger operator, $\bar{\partial}$ - method and nonlinear equations. — Funct. Anal. i ego Pril., 1986, v. 20, No 1, pp. 14-24 (in russian); English translation: Funct. Anal. Appl., 1986, v.20, pp. 94-103.

7. Grinevich P.G. Vector rank of commuting matrix differential operators. Proof of the S.P.Novikov criterion. — Izvestiia. AN SSSR, 1986, v.50, No 3, pp. 458-478 (in russian); English translation: Mathematics of the USSR, Izvestiya, 1987, v. 28, No 3, pp. 445-465.

8. Grinevich P.G. Rational solitons of the Veselov-Novikov equations are potential reflectionless at fixed energy. — Teoreticheskaya i Mathematicheskaya Fizika, 1986, v.69, No 2, pp. 307-310 (in russian); English translation: Theor. Math. Phys. 1986, v.69, pp. 1170-1172.

9. Grinevich P.G., Novikov S.P. Two-dimensional "inverse scattering problem" for negative energies and generalized-analytic functions. 1. Energies below the ground state. — Funct. Anal. i ego Pril., 1988, v. 22, No 1, pp. 23-33 (in russian); Funct.Anal.Appl., 1988, v. 22, pp. 19-27.

10. Grinevich P.G., Volovik G.E. Topology of gap nodes in superfluid $_3He$: $\pi_4$ homotopy group for $_3He-B$ disclination. — Journal of Low Temp. Phys. 1988, v.72, Nos 5/6, 371-380.

11. Grinevich P.G., Novikov S.P. Two-dimensional "inverse scattering problem" for fixed negative energies and generalized analytic functions. — In Proc. of the "Plasma theory and nonlinear and turbulent processes in physics" Workshop, Kiev 13-25 April 1987. World Scientific 1988, pp. 58-85.

12. Grinevich P.G., Novikov S.P. Inverse scattering problem for the two-dimensional Schrodinger operator at a fixed negative energy and generalized analytic functions. — Proceedings of the 3 international workshop on nonlinear and turbulent processes in physics.Kiev 13-26 April, 1987, Kiev, Naukova Dumka 1988, pp. 86-89.

13. Grinevich P.G. Fast decreasing potentials on a background of finite-zone potential and the $\bar\partial$ - problem on Riemann spaces. — Funct. Anal. i ego Pril., 1989, v. 23, No 4, pp. 79-80 (in russian); English translation: Funct. Anal. Appl. 1989, v. 23, pp. 321-322.

14. Grinevich P.G., Orlov A.Yu. Vector fields action on Riemann surfaces and KP theory. The Krichever-Novikov problem. — In Nonlinear world: Proceedings of the 4 international workshop on nonlinear and turbulent processes in physics.Kiev 9-22 Oktober, 1989, Kiev, Naukova Dumka 1989, v. 2, pp.246-249.

15. Grinevich P.G., Orlov A.Yu. Wilson $\tau$ - function and $\det\bar\partial$. — In Nonlinear world: Proceedings of the 4 international workshop on nonlinear and turbulent processes in physics. Kiev 9-22 Oktober, 1989, Kiev, Naukova Dumka 1989,v. 2, pp.242-245.

16. Grinevich P.G., Orlov A.Yu. Virasoro action on Riemann surfaces, Grassmanians, $\det\bar\partial$ and Segal-Wilson $\tau$- function.— In Problems of modern quantum field theory (Invited lecvtures of the spring school held in Alushta USSR, April 24 - May 5, 1989), ed. A.A.Belavin, A.U.Klimyk, A.B.Zamolodchikov, Springer-Verlag, 1989, pp. 86-106.

17. Grinevich P.G., Orlov A.Yu. Variations of the complex structures of the Riemann surfaces by the vector fields in the circle and the KP theory objects. The Krichever-Novikov problem of the action on the Baker-Akhiezer function. — Funct. Anal. i ego Pril., 1990, v.24, No 1, pp. 72-73 (in russian); English translation: Funct. Anal. Appl. 1990, v. 24, pp.61-64.

18. Grinevich P.G., Krichever I.M. Algebraic-geometry methods in soliton theory. — In "Soliton theory: a survey of results", ed. A.Fordy, University press, 1990, pp. 354-400.

19. Grinevich P.G., Orlov A.Yu. Effect of additional symmetries of K-P equation on the finite-gap solutions and variatons of Riemann surfaces. The Krichever-Novikov problem. — In "Soliton and applications" (Proceedings of the 4 international Workshop, Dubna, USSR, 24 - 26 August 1989), ed. V.G.Makhankov, V.K.Fedyanin, O.K.Pashaev, World Scientific 1990, pp. 147-151.

20. Grinevich P.G., Orlov A.Yu. Higher (non-isospectral) symmetries of the Kadomtsev-Petviashvily equations and the Virasoro action on Riemann surfsces. — In "Nonlinear evolution equations and dinamical systems", ed. S.Carillo, O.Ragnisco, Springer-Verlag, 1990, pp 165-169.

21. Grinevich P.G., Orlov A.Yu. Virasoro algebra action on the moduli of Riemann surfaces. Realization in the Kadomtsev-Petviashvily equation theory. The Krichever-Novikov problem about the action on the Baker-Akhieser function. — In "Geometry and topology and applications", Moscow, 1990 pp. 100-105, (in russian).

22. Benderskii V.A., Grinevich P.G., Makarov D.E., Pastur D.L. Preexponential factor of rate constant of low-temperature chemical reactions. Fluctuational width of tunneling channels and stability frequences. — Chem. Phys., 1992, v.161, pp. 51-61.

23. Benderskii V.A., Grinevich P.G., Makarov D.E., Quantum chemical dinamics in two dimensions. — Chem. Phys., 1993, v. 170, pp. 275-293.

24. Grinevich P.G., Orlov A.Yu, Schulman E.I. On the symmetries of the integrable systems. — In the book. "Important developments in soliton theory", ed. A. Fokas, V.E. Zakharov, Springer-Verlag, Berlin - Heidelberg - New York, 1993, pp. 283-301.

25. Grinevich P.G. The action of the Virasoro nonisospectral KdV symmetries of the Whitham equations. - in "Nonlinear Processes in Physics" (Proccedings of the 3 Potsdam - 5 Kiev Workshop at Clarkson University, Potsdam, NY, USA, August 1-11, 1991), ed. A.S.Fokas, D.J.Kaup, A.C.Newell, V.E.Zakharov, Springer-Verlag, 1993, pp. 108-112.

26. Grinevich P.G., Novikov S.P. String equation-2. Physical solution. — Algebra and Analysis, 1994, v.6, No 3, pp. 118-140 (in russian); English translation: St. Petersburg Math. J., 1995, v. 6, No 3, pp. 553-574; Avaliable in the electronic preprint library: www.arxiv.org: solv-int/9501002.

27. P.G.Grinevich. Fast decaying potentials on the finite-gap background and the $\bar{\partial}$-problem on the Riemann surfaces. — Teoreticheskaya i Mathematicheskaya Fizika, 1994, v. 99, No 2, pp. 300-308; Theor. Math. Phys., 1994, v.99, pp. 599-605.

28. Grinevich P.G. Nonisospectral symmetries of the KdV equation and the corresponding symmetries of the Whitham equations. — In "Singular limits of Dispersive waves", ed. N.M.Ercolany, I.R.Gabitov, C.D.Levermore, D.Serre, NATO ASI Series, Series B: Physics Vol. 320, Plenum, 1994, pp. 67-88. Avaliable in the electronic preprint library: www.arxiv.org: solv-int/9509004.

29. Grinevich P.G., Schmidt M.U. Period preserving nonisospectral flows and the moduli space of periodic solutions of soliton equations. — Physica D, 1995, v. 87, pp 73-98; SFB 288 preprint No 150, Berlin, Dec 1994; Avaliable in the electronic preprint library: www.arxiv.org: solv-int/9412005.

30. Grinevich P.G., Novikov S.P.. Nonselfintersecting magnetic orbits on the plane. Proof of Principle of the Overthrowing of the Cycles. —Translations of American Mathematical Society, series 2., 1995, v.170, pp. 199-206; Avaliable in the electronic preprint library: www.arxiv.org: solv-int/9501006.

31. Grinevich P.G., Novikov R.G. Transparent Potentials at Fixed Energy in Dimension Two. Fixed-Energy Dispersion Relations for the Fast Decaying Potentials. — Commun. Math. Phys., 1995, v.174, pp. 409-446; Avaliable in the electronic preprint library: www.arxiv.org: solv-int/9410003.

32. Grinevich P.G., Schmidt M.U. Periodic preserving deformations of the finite-gap solutions of the soliton equations. in: Proceedings of the first workshop "Nonlinear physics. Theory and experiment". editors: E.Alfinito, M.Boiti, L.Martina, F.Pempinelli. World Scientific (1996). pp. 124-130.

33. Grinevich P.G. Nonsingularity of the direct scattering transform for the Kadomtsev-Petviashvili 2 equation with real exponentially decaying at infinity potential. — Lett. Math. Phys., 1997, v. 40, pp. 59-73; Avaliable in the electronic preprint library: www.arxiv.org: solv-int/9509010.

34. Grinevich P.G., Schmidt M.U. Closed curves in $R^3$: a characterization in terms of curvature and torsion, the Hasimoto map and periodic solutions of the Filament Equation. — SFB 288 preprint No 254; Avaliable in the electronic preprint library: www.arxiv.org: dg-ga/9703020.

35. Grinevich P.G., Schmidt M.U. Conformal invariant functionals of immersions of tori into $R^3$; — Journal of Geometry and Physics, 1998, v. 26, No 1-2, pp. 51-78; SFB 288 preprint No 252, Berlin, Feb 1997; Avaliable in the electronic preprint library: www.arxiv.org: dg-ga/9702015.

36. Grinevich P.G, Novikov R.G. Discrete spectrum for $n$-cell potentials. Rapport de Recherche No 98/10-2, Universite de Nantes; Avaliable in the electronic preprint library: www.arxiv.org: math-ph/9811014.

37. Grinevich P.G. The scattering transform for the two-dimensional Schrödinger operator with a potential that decreases at infinity at fixed nonzero energy; — Uspekhi Mat. Nauk, 2000, v. 55, no. 6(336), pp. 3–70 (in russian); English translation: Russian Math. Surveys, 2000, v. 55, no. 6, pp. 1015–1083.

38. Grinevich, P.G. Schmidt, M.U. Closed curves in $R^3$ and the nonlinear Schrödinger equation. Proceedings of the Workshop on Nonlinearity, Integrability and All That: Twenty Years after NEEDS '79 (Gallipoli, 1999), pp. 139–145, World Sci. Publishing, River Edge, NJ, 2000.

39. Grinevich P.G. Approximation theorem for the self-focusing nonlinear Schrödinger equation and for the periodic curves in $\mathbb{R}^3$. Advances in nonlinear mathematics and science; — Phys. D, 2001, v. 152/153, pp. 20–27. Avaliable in the electronic preprint library: www.arxiv.org: nlin.si/0002020

40. Grinevich P.G., Novikov, S.P. Real finite-gap Sine-Gordon solutions: a formula for topological charge; — Uspekhi. Mat. Nauk, 2001, v. 56, no. 5, pp. 181–182 (russian); English translation: Russ. Math. Surveys, 2001, v. 56, no. 5, pp. 980–981.

41. Grinevich P.G., Novikov S.P. Topological Charge of the real periodic finite-gap Sine-Gordon solutions. To appear in: Comm. Pure Appl. Math. Avaliable in the electronic preprint library: www.arxiv.org: math-ph/0111039.
